

# ATTITUDE

"The longer I live, the more I realize  
the impact of attitude on life.

Attitude to me, is more important  
than facts.

It is more important than the past,  
than education, than money,  
than circumstances, than failures,  
than successes, than what other people  
think or say or do.

It is more important than appearance,  
giftedness or skill.

It will make or break a company...  
a church...  
a home.

The remarkable thing is we have a  
choice

every day regarding the attitude  
we will embrace for that day.

We cannot change our past...

we cannot change the fact that people  
will act in a certain way.

We cannot  
change the inevitable.

The only thing we can do  
is play on the one string we have,  
and that is our attitude...

I am convinced that life is  
10% what happens to me  
and 90% how I react to it.

And so it is with you...

we are in charge of our attitudes."

The normal range is around 200 points or below. This disease left him physically disabled and at death's door.
